BIOPHILIC
MOSS WALLS

WHAT IS BIOPHILIC ART?

bio·phil·ia *a human tendency to interact or be closely associated with other forms of life in nature : a desire or tendency to commune with nature*

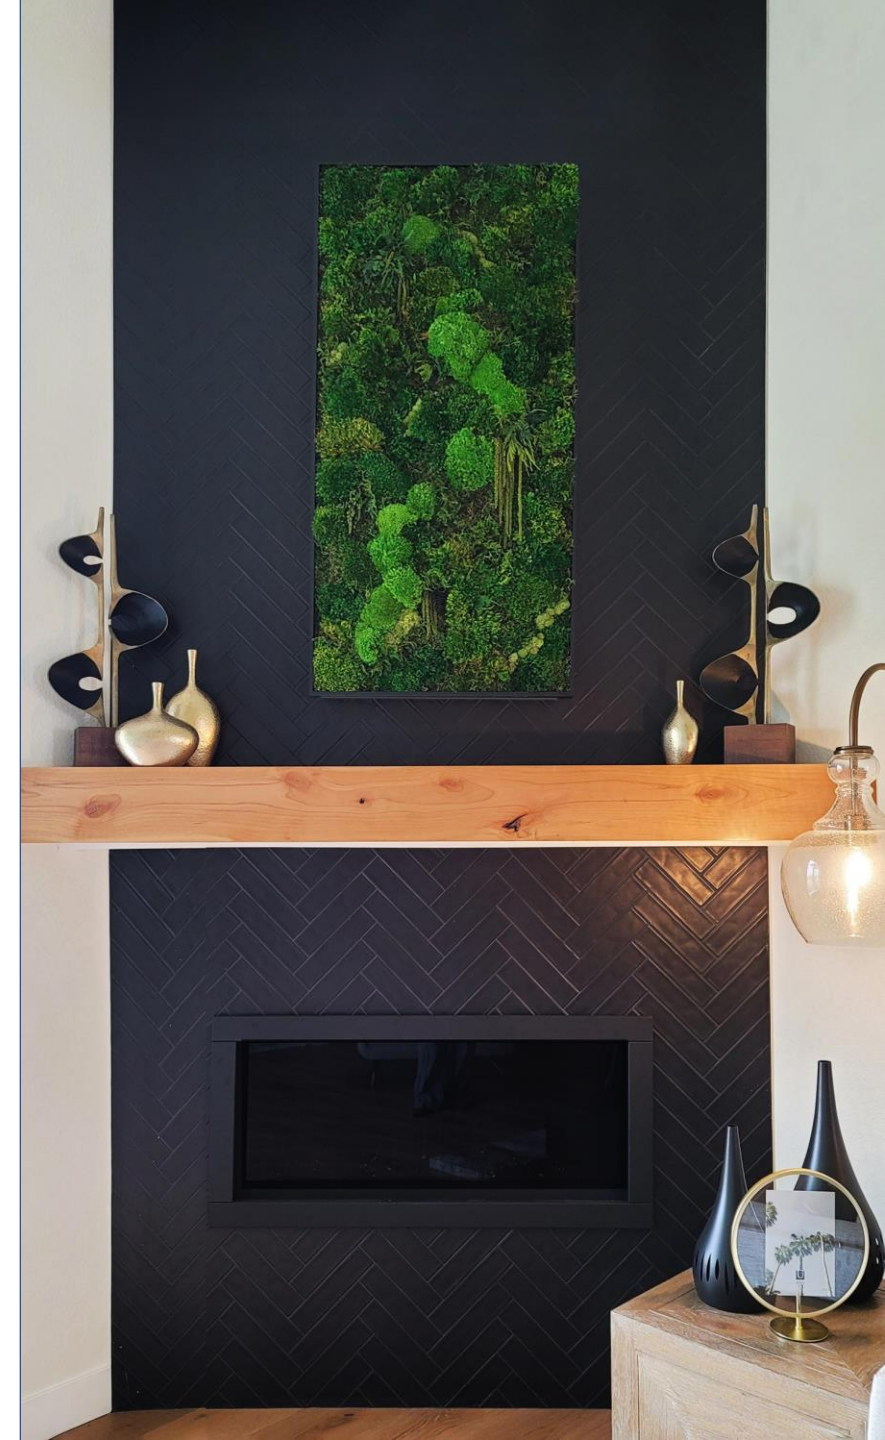

Biophilic Design is a philosophy that incorporates natural elements into our built environment, with the goal of strengthening our connection to the natural world. Biophilic artwork is one way of creating this connection and includes art pieces created using natural or sometimes living materials.

IN-HOUSE CUSTOM MOSS WALLS
